PG-DAC FEB 2020 Placement Status & Stats									
Sr. No.	PRN	NAME	Placed*	Date of Placement*	Company*	Location*	Questions asked during placements		
							TECH Round		HR Round
1	200240120001	Aakash Kumar Bhati	<input checked="" type="checkbox"/>	20-02-2021	Cybage Software Pvt Ltd	Pune	Project Details, OOPS Concepts, Difference Between Overriding and overloading, Types of Polymorphism, Difference Between Authenticate and Authorization		Introduction, Speak on random topic for some time, what you like most about Cybage, Why did you choose CDAC, Reason for career switch, Willing to relocate
2	200240120002	Aaryansh Tyagi	<input type="checkbox"/>						
3	200240120004	Kekde Abhang Shrirang	<input checked="" type="checkbox"/>	11-02-2021	CDAC PUNE	Pune	Project Details, .Net basics, private constructor, multithreading, abstraction with real time example, compile & run time polymorphism, diff. between final,finally and finalize, asynchronous method, diff between error and exception, basic DS questions, Object cloning, Exception handling & other basics of java		No HR Round
4	200240120005	Abhi Shukla	<input checked="" type="checkbox"/>	19.02.21	Cybage Software Pvt Ltd	pune			
5	200240120006	Abhijeet Santosh More	<input checked="" type="checkbox"/>	21.02.2021	Cybage Software Pvt Ltd	Pune	Project Details,Truncate vs Drop,OOPS Concepts,Normalisation,Unit testing,White box vs Black box		Introduction,About Family
6	200240120007	Abhikrant Kumar	<input checked="" type="checkbox"/>	16-02-2021	Coupa Software	Pune,Hyderabad	Project Details,Java Concept,Merge Sort,Array based coding		
7	200240120008	Abhishek Jinendrabhushan Bande	<input checked="" type="checkbox"/>	20-02-2021	cybage software pvt. Ltd	pune			
8	200240120010	Aditi Dattatray Lendave	<input type="checkbox"/>						
9	200240120012	Ajay Kumar Biswas	<input checked="" type="checkbox"/>	24-02-2021	IKS Health	Mumbai	Questions on Database and Java, Memory Diagram for object creation, overloading vs overriding, cross join, what if we mention null = null condition on joins		Why we switch into IT sector, about job experience, about cdac experience, about problems faced during project
10	200240120015	Akash Gajanan Bagade	<input checked="" type="checkbox"/>	18-02-2021	FlexTrade India Pvt Ltd	Pune	Database basics,operating system basics, little bit about shell scripting		Introduction, Address, About family, Hobbies
11	200240120017	Akash Suman	<input checked="" type="checkbox"/>	11-02-2021	CDAC PUNE	Pune			No HR Round
12	200240120018	Akshay Dnyaneshwarrao Changole	<input checked="" type="checkbox"/>	19-02-2021					
13	200240120019	Alok Keswani	<input checked="" type="checkbox"/>	20-02-2021	Cybage Software Pvt Ltd		Introduction,Explain your project,can we pass container to another container in angular,questions on environments in angular,which collections did you use in your project,Static classes,static methods,static methods vs methods,Interfaces,Abstraction,Bubble sort,types of queries in MYSQL,Joins and its types, difference in truncate and delete,delete and drop,de-normalization,questions on git		Introduction,Tell me about your family,Why did you choose CDAC,A general topic was given for discussion,willingness for relocation
14	200240120021	Ambarish Kulkarni	<input checked="" type="checkbox"/>	11-02-2021	CDAC PUNE	Pune	Collection Framework, Static Components,Multi-threading,Exception Handling,Angular vs AngularJS, Database Queries,Spring Boot basics,Dependency Injection,Can we override main() method in Java, Difference between NoClassFound and ClassNotFoundException		Hobbies, Weekend activities, Willingness to relocate, Side projects
15	200240120023	Amit Pradeep Nawale	<input checked="" type="checkbox"/>	11-02-2021	CDAC PUNE	PUNE	CDAC & BE project,c vs java,class,structure vs enum,inline vs macro,oops concept,loops,overloading vs overriding,puzzles,collection framework,hibernate,pointer,real life examples of oops concepts,spring intro,why cdac		
16	200240120024	Deshmukh Aniket Anilrao	<input checked="" type="checkbox"/>	01-03-2021	Amdocs	Pune	Introduction, Project, Java: OOPS Concept with real time examples, difference bet final, finally, and finalise with practical example, Overloading VS Overriding, Basics of collection framework and other basic question related to Core JAVA, Asked to solve two coding problems, SQL: Difference between various keys, diff. aggregate functions, pattern matching, IN keyword, Constraints, JOINS, UNIX: Basic commands		Introduction, About family, Why Amdocs?
17	200240120026	Aniruddh Joshi	<input checked="" type="checkbox"/>	18-02-2021	Paycraft	Mumbai			
18	200240120029	Ankit Hepat	<input checked="" type="checkbox"/>	16-02-2021	Coupa Software	Pune,Hyderabad	Sorting and DS related algorithms,String manipulation,OOPS Concepts,Polymorphism with implementation,Database schema design and queries related to that schema,Normalization,Difference Between Spring and Spring Boot,Dependency Injection,Lambdas,Collection Framework,Angular,Spring Boot Annotations,Project Related specific questions,Past work experience related questions about the nature of work,C++ STL related questions,Puzzles,Program for Nth min and maximum in an unsorted array without sorting it		Hobbies,Biggest Achievement and Blunder,Introduction
19	200240120030	Ankit Singh	<input type="checkbox"/>						
20	200240120031	Ankit Verma	<input checked="" type="checkbox"/>	20 Feb 2021	Cybage Software		Project Details,Java Concept		Introduce yourself,hobbies,why Cybage?
21	200240120032	DOD ANKUSH ASHOK	<input checked="" type="checkbox"/>	20 Feb 2021	Cybage Software		Introduction,Project details,what is Docker?why we use Docker?how to deploy project on docker?what is Devops?n-tier architecture of your project?MVC,Primary key, Foreign key,Joins, Constrains,Trigger, View query related to joins, what is Springboot?what is ORM?Hibernate?Annotations?what is Thymeleaf?OOPS Concepts,Stored procedure,Static keyword,inline function,multiple Inheritance, Diamond problem solution,Linked list,heap sort,merge sort,binary search		Introduce yourself,hobbies,why Cybage?
22	200240120033	Telkuntalwar Ankush Sunil	<input checked="" type="checkbox"/>	27 Mar 2021	ZF Associate	Hyderabad	Elaborate "public static void main" in brief How to create singleton class Difference between interface and abstract class write code for method overloading and method overriding Explain multithreading and thread methods Constructor can be overridden? How we implement queue data structure from stack data structure which traversal is best for traversing wide binary tree Write code for bubble sort Questions based on BIOS What is join and explain its type Explain innerHTML What is inline, internal and external regards to CSS Explain is JPA Explain CLR Questions on version controlling system What is distributed computing network what is cloud computing		Tell me about yourself Why do you chose CDAC Why do you need this job Family background

PG-DAC FEB 2020 Placement Status & Stats									
Sr. No.	PRN	NAME	Placed*	Date of Placement*	Company*	Location*	Questions asked during placements		
							TECH Round	HR Round	
65	200240120080	Karun Rajagopal	☑	16-02-2021	Coupa Software India Pvt. Ltd.	Hyderabad/Pune	Java: What are the OOPS concept, give an example for each of them. Explain OOP concept such that even a non-technical person can understand it. How did you apply OOPS in your project? What is the type of parameter for equals method? What is cloning? What is the difference between Hashmap and Hashtable? What are the different data structures available in Java? How can one change the max heap size allocated for a java application? OS: What is hardlink and softlink. What is sticky bit. What will happen to the inode/permissions if (a) You move your file to another location (b) Copy to another location (c) Copy it to another file system Explain the various file-systems in UNIX How do you troubleshoot a process which stops as soon as you start it. How do you change the ownership of a file ADS: What are the various searching and sorting algorithms? Explain the various scenarios in which you would use each of those sorting algorithms. How to find the longest ascending sequence from a given sequence. How many data structures have you implemented on your own? What are the various applications of stack? DBT: Which are the various data-types in MySQL Query to find employee with the fifth largest salary Misc: Was asked to explain BE/BTech project in detail. What are microservices. Explain in brief your CDAC project (Project Management System). There are many project management tools available in the market, why did you go for such an idea? Did you add any security feature for your project? If yes, explain. If the cost of one chocolate is Rs 1 and you have Rs 15 with you, how many max chocolates can you buy. The shop offers 1 chocolate for free if you return 3 wrappers. Write a program which can calculate the correct answer.		
66	200240120081	Khushboo Joshi	☑	27/02/2021	Bank of America				
67	200240120082	Kulkarni Krishna Renukadas	☐						
68	200240120083	Krismin Rameshbhai Vekariya	☑						
69	200240120084	Kuldip Maruti Ghotne	☑	22/02/2021	Cumulus	Pune	Round 1 with given array find maximum subarray sum 2. write the code for overloading and overriding 3.Find middle of linked list gave ans then asked for optimized approach 4 create thread with runnable ROUND 2 2.1 Given two linked list merge and sort them so that the new list will have sorted list with one stable list --ans given the asked to solve with Recursive approach 2.2 write a deadlock problem in java 2.3 solve the written deadlock code earlier 2.4 Puzzle 8 batteries 1 torch 4 batteries working and 4 batteries not working. What will be the minimum no checking so we can distinguish between them. Round 3 Given two linked calculate the sum of nodes (trating as a genreal number) gave solution was asked for Recursive approach 2 Custom Sorting of Object Student object need to be sorted on rollNo THEORY what is thread,communication between them,data transfer between them, difference between thread and process. Thread pool, Exceutor service. COLLECTION-- arraylist vs vector vs hasmap vs hashset How will you create a Arraylist from data structure, Comparable comparator, implementation, internal working of hashmap and hashset, how hashset has smallest memory footprint and high performance stack vs queue, insertion deletion complexities Queue -- deque -- priority and blocking also verbal implementation of queue with ll, program on fabonacaci series,program to find count of spaces in a string,swap function,a question on puzzle,Oops concepts,polymorphism,difference between c# and java,mysql query,difference between interface and abstract classes .program to reverse a string,program to find the count of vowels in a string, program to print only the words which have 2 a's in the string,Explain your project.	Tell me about yourself? Biggest problem faced and solution to it, Conflict situation and resolution Ready to relocate to Pune ?	
70	200240120085	Kunal Mishra	☑	01-03-2021	Siemens Healthineers	Banglore	program on fabonacaci series,program to find count of spaces in a string,swap function,a question on puzzle,Oops concepts,polymorphism,difference between c# and java,mysql query,difference between interface and abstract classes .program to reverse a string,program to find the count of vowels in a string, program to print only the words which have 2 a's in the string,Explain your project.	Tell me about yourself?,Biggest problem faces and solution to it?,what did you for the six months after completion of B.E?,Will you be able to relocate to bnaglore within 15 day ?	
71	200240120086	Warude Kunal Lilachand	☐						
72	200240120087	Madhur Jain	☐						
73	200240120088	Mahesh Arun Shinde	☑	11/02/2021	CDAC pune	Pune	Can we override main method() ,how to select alternative row from table,Union,Intersect,Minus,Method area in JVM ,what is classloader,main component in angular,what % (mod) means??

79	200240120094	Mehul Chavhan	<input checked="" type="checkbox"/>	21/02/2021					
80	200240120095	Mohd Zeeshan Khan	<input checked="" type="checkbox"/>	25/02/2021	SIEMENS	Bangalore	Tell me about yourself, Brief idea of the project, What are OOPS concepts? Describe each concept with code. What is the diff b/w array and array list? Which one is type safe and why? Given two 3 litres and 4 litres. Pour out exactly 5 litres of water into a different container of infinte capacity. On one side of a river are a farmer, a chicken, a fox and bag of corn. You have to go to the other side of the river in such a way that fox may not each the chicken or chicken may not eat corn.		Tell me something about yourself? Why siemens? What products does siemens make? Are you willing to relocate? What are your weaknesses? How are you planning to overcome it?
81	200240120096	Mukul Yadav	<input type="checkbox"/>						
82	200240120098	Neha Kumari	<input checked="" type="checkbox"/>		PayCraft	Bangalore	Round 1 ===== 1. What is classes 2. Explain oops concept along with uses 3. Access Specifiers along with uses 4. Aptitude ques based on train relative speed,and number series 5. Write a program of bubble sorting algo 6. Write a program of Fibonacci series7. 7. What is file structure and storage structure Round 2===== 1.Types of Exception 2. String,String buffer, Stringbuiler difference 3. Write a program having array a[]={1,2,7,9,3,4} find pair of elements having sum=10 but pairs must not be repeated(unique pairs should be displayed) How many approaches you can use and explain which one is good respective to complexity. Tell me the complexity of approach you have used 4. What do you mean by time complexity 5. Reverse array elements of integer and char types with both stl and iterative approach 6. How will you write a program for two thread to execute, How will you avoid some implementations which are under sync block 7. Applications of stack8. How will you reverse the array using stack and tell the complexity 9. If you have a array to sort which algo will you prefer and why 10. Write code of merge sort(with explanations how it works), bubble sort 11. What is difference between c and java 12. Where we use c++ and where we use java 13.Which lang is faster 14. Difference between compiler and interpreter 15. What is Binary Tree 16.How we can traverse tree ,explain all the methods 17.Write a program of fibonacci series upto size 100
